## CAREER OBJECTIVE

Front-End Developer with a enthusiasm to collaborate with senior developers to learn and develop digital products and solutions. Enjoy working closely with team members to ensure workloads are effectively redirected to bottlenecks and personally picking up the slack when necessary. With a passion for both personal growth and for software development, self-taught with 600+ hour coding camp to learn new languages while sharpening existing skills. I aspire toward a career that will allow me to channel my creativity through crafting amazing websites and engaging user experience.

## WORK EXPERIENCE

### Project Engineer

#### Savair Energy LTD

📅 June 2019 - June 2021

📍 Navi Mumbai

- Analyze the Tender and examine the relevant scope of work. Dealt with vendors with technical offers and made Technical bid evaluation
- Prepared Project schedule and tracked project progress.
- Prepared MR, PR, PMS and technical datasheet.

## PROJECTS

### Weather App

#### Designer, Developer

📅 2021 - current

- Built a weather web app which allows the user to input location to find the current weather.
- Used JavaScript to fetch data from OpenWeatherMap API and extracts needed data from JSON format and is displayed.
- Working on to add the forecast for the next 5 days of that location.

### Personal website

#### Designer, Developer

📅 2021

- Portfolio website created to showcase my skills and past works
- Used HTML, CSS , JavaScript to built it. Used CSS variables so as to maintain the website customizable with color-scheme and typography. Also included vector graphics instead of normal images to make SEO friendly.

### To-do List App

#### Developer

📅 2021

- Made a simple to-do list web app using JavaScript.
- App allows the user to add the task that needs to be completed. which can be modified later.
